## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 5, the prior art of records do not show the limitations of an image processing apparatus comprising "the average means multiplies the second pixel value by a large weighting factor by the multiplication means when the similarity between the first pixel and the second pixel is high, and multiplies the second pixel value by a small weighting factor when the similarity is low; and average means subjects the weighted first pixel value and second pixel value to the weighted averaging" in combination with other limitations of the claim.

Regarding independent claims 14 and 34, the prior art of records do not show the limitations of an image processing apparatus comprising "an average means configured to average values of the first pixel and the second pixel when the numerical similarity is high in the numerical unit, and to not average the first pixel value and the second pixel value when the determined similarity is low" in combination with other limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
